THE IMPORTANCE OF POLLINATORS

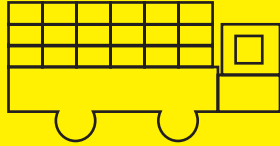

POLLINATION CROPS FOOD

COLONY COLLAPSE DISORDER (CCD)

In 2006, beekeepers reported a large amount of bees decline. Colony collapse disorder is the term used about their disappearance & Death. There are many factors that contribute to their decline.

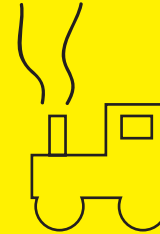

Migratory beekeeping

Commercial Beekeeping

Over harvesting

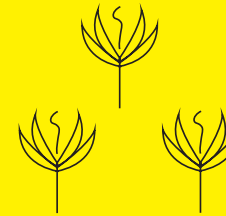

Enviroment

Pesticides

Disease + Viruses

lack of meadows

I GAVE PEOPLE ONE PART OF THE STORY!

WITHOUT BEES
No Bees = No cherrios

WITHOUT BEES
No honey, no sweets, no fruit, no sugar, education, no social education!

WITHOUT BEES
No Sweets, No Fruit

WITHOUT BEES
No flowers, No chocolate, No honey

WITHOUT BEES
Let it be
Bee Be

WITHOUT BEES
US!
IN THE AIR
TO NOT BE
FRESH

WITHOUT BEES
Flowers

WITHOUT BEES
Life starts with us, flowers, and medicine

Save our
Bumblebees!

WITHOUT BEES
There would
be no honey
brown like "

WITHOUT BEES
the buzzing
in the air
would not be
there to thr

WITHOUT BEES
I wouldn't have
any honey to buy

IT WAS ALL ABOUT THE PEOPLE!

WITHOUT BEES

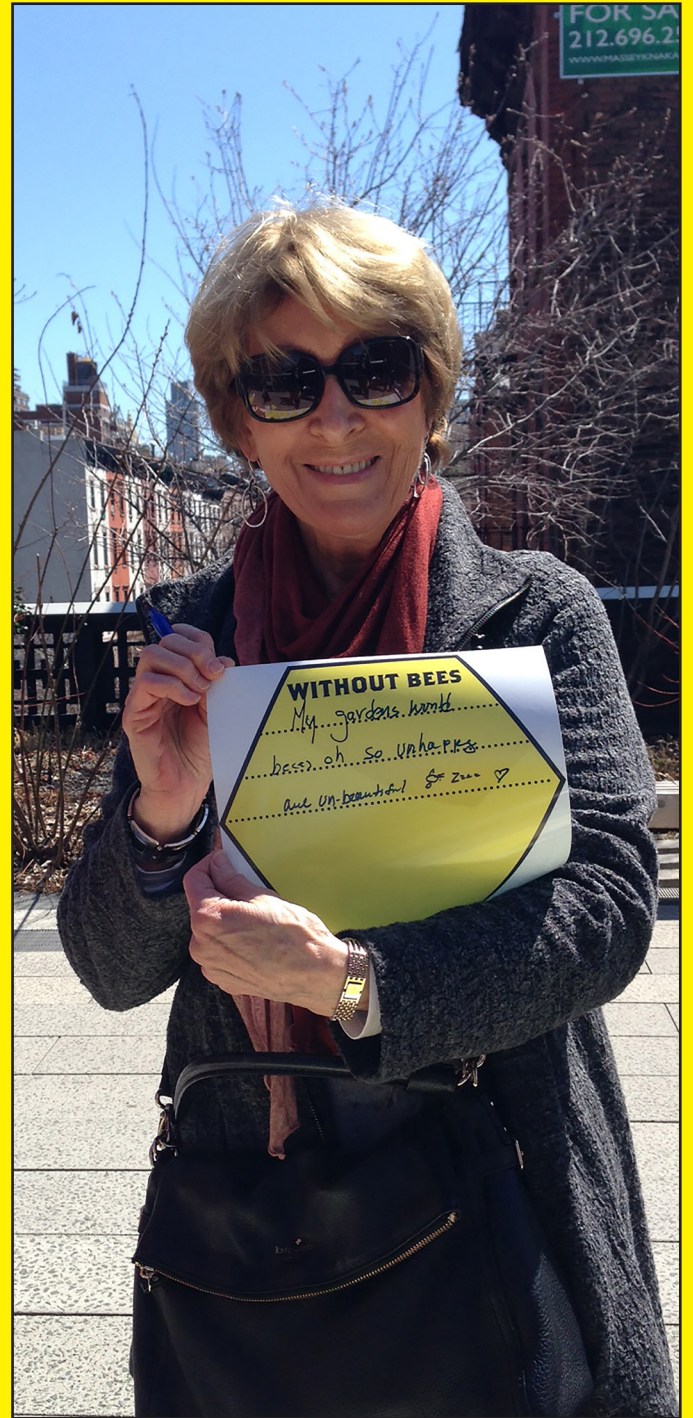

There is no "we".
GIVE BEES A CHANCE;

THESIS STATEMENT

As a result of the plight of the honey bee, through the spirit of collaboration, I want to empower one other to take initiative towards enviromental action.

WHAT DID PEOPLE TAKE AWAY?

-Engagement

-Team Effort

-Stories

-Life long learning

SMALL STEPS OF CHANGE:

HOW CAN WE HELP?

-Diversifying flowers.

-Beekeeping.

-Support local farmers.

-Donations for more research.

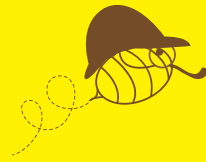

-Educate children & consumers to become more mindful about the importance of bees.
